

DEAR UNREQUITED LOVE GIRL

A Coming-of-Age Romance

“An achingly truthful coming-of-age romance.” – TheLesbianReview.com

“Funny. Charming. Smart. Audrey Wilson has delivered a perfect blend of these in Dear Unrequited Love Girl—a swoony, deeply relatable story about both finding yourself and finding love.” – Dana Hawkins, author of My Girlfriend is Not the Father

“Audrey Wilson’s Dear Unrequited Love Girl is YA at its finest ... a swoon-worthy queer love story that will have you sighing, kicking your feet, and applauding both heroines for their bravery in fighting not just for each other but for themselves. I loved every minute of it,” – Katia Rose, bestselling author of Catch and Cradle

Two girls. One celebrity crush. And a pen pal connection that just might be the real love story.

When Jay and Amber begin conversing online, they soon realize their connection goes deeper than their obsession over the obscure TV actor Josh Owen. As the two girls help each other navigate through their daily obstacles, their supportive pen pal relationship soon evolves into their very own love story.

At the intersection of Fangirl and She Gets the Girl, Dear Unrequited Love Girl is a swoony, funny, and emotionally resonant story about growing up, coming out, and discovering your person in the most unexpected way. Perfect for fans of slow-burn romance, chaotic queer crushes, and love stories written one message at a time.
