Love can be romantic. It can be platonic. It can be between you and a partner, a family member, a friend, or even yourself. Whatever the relationship, if love can break your heart, words can mend it.

From the award-winning author of *Wrong Girl Gone* and *Only Human* comes *Landing Like Rain*. This 102-page illustrated collection of poetry and short stories weaves together tangible, bite-size tales about the simplest acts of love, such as the feeling of being tangled up in the emotions of your first love, to the painful awakening of what it means to love someone, and what it could mean to lose them. Through laughter, tears, and everything in between, *Landing Like Rain* is so much more than words on a page - it's a feeling you won't want to fall out of.
